

Construction of the Saint Teresa of Kolkata Building is currently underway on ACU's Melbourne Campus. See the latest progress on [webcam 1](#) and [webcam 2](#).

Four-week outlook: How you may be affected

Area	Impact	Timing
Little Victoria Street	There will be road and footpath closures at times during the next four weeks. There will also be changes to how you access the Mary Glowrey Building (MGB) from Little Victoria Street. Temporary wayfinding signage will be provided. Please keep an eye out for University Work Notification emails for confirmed dates.	October
MGB north café	A new automatic door will be available and the existing door near the library will be closed until construction is complete. As a result, there will be changes to how you access the MGB from Little Victoria Street. Temporary wayfinding signage will be provided. The north café tables and chairs will also be rearranged due to the location of the new door. Please keep an eye out for University Work Notification emails for confirmed dates.	Early October
MGB north fire stairs	The MGB north fire stairs will be closed in preparation for demolition works. Updated emergency evacuation diagrams have been installed throughout the MGB.	October
South side of the eastern wing of the MGB	Window protection will be installed above the loading dock windows. Expect some intermittent noise during these works. Please keep an eye out for University Work Notification emails for confirmed dates.	October to January

Upcoming and ongoing activity

Area	Impact	Timing
MGB	Due to construction activities and OH&S requirements, areas of the MGB will be inaccessible during November. Please keep an eye out for University Work Notification emails for confirmed dates and locations.	November
Main construction site (corner Victoria Parade and Napier Street)	There will be construction noise and increased truck movements. Pedestrians should be aware of increased construction vehicle movement in this area.	Ongoing

Construction update

Recent construction work includes:

- installation of the project's first tower crane
- continuation of piling works in preparation for the excavation required to construct the building's basement car park
- piling and mega column investigation works in the MGB northern moat area.
